# Strand 3: Structural Reform Projects. CALL 2023

aimed at **producing an impact on higher education systems and promoting reforms at national and/or regional level** in the eligible Partner Countries.

Structural Reform projects will address the efforts of countries to develop coherent and sustainable systems of Higher Education to meet their socio-economic needs and **ultimately create a knowledge-driven economy.**

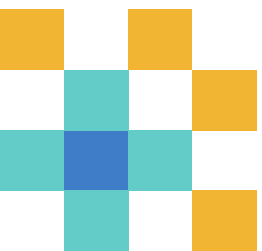

## Reform of Higher Education System

# Strand 3: Structural Reform Projects. CALL 2023

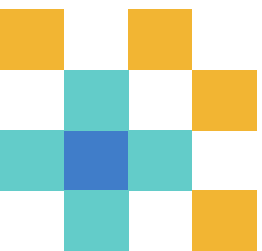

By involving the competent **National Authorities** (notably Ministries of Education), **HEIs**, **Research institutions** and other relevant authorities/bodies and stakeholders, these projects will particularly:

- Promote **cooperation and mutual learning** among and between public authorities at the highest institutional level to foster systemic improvement and innovation in the higher education sector.
- Promote **inclusive higher education systems** that can provide the right conditions for students of different backgrounds to access learning and succeed. Particular attention should therefore be paid to people with fewer opportunities.
- **Increase the capacities** of HEIs, competent authorities (notably Ministries) through their participation in the definition, implementation and monitoring of reform processes to modernize their higher education systems, particularly in terms of governance and financing.

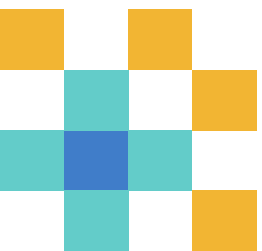

**Structural Projects** may typically carry out a wide range of activities, such as:

- strengthening of internationalization of higher education systems
- introduction of **Bologna-type reforms** (three-level cycle system, quality assurance, evaluation, etc.);
- implementation of transparency tools such as credit systems, accreditation procedures, guidelines for the recognition of prior and non-formal learning etc.

**Structural Projects** may typically carry out a wide range of activities, such as:

- establishment of National Qualification Frameworks;
- development and implementation of internal and external quality assurance systems/guidelines;
- development and implementation of new approaches and tools for **policy making and monitoring**, including the establishment of representative bodies, organizations or associations;
- strengthening the integration of education, research and innovation.
